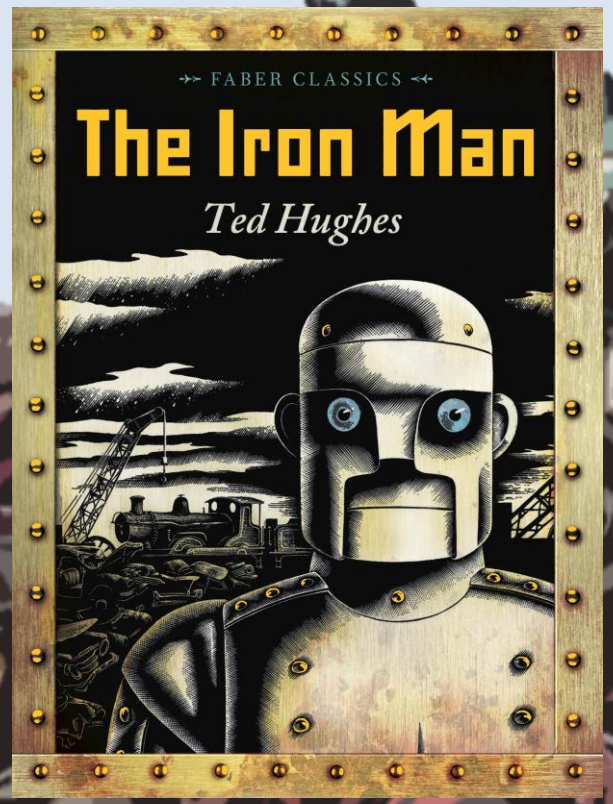
Year 3 Reading: The Iron Man

We will be:

1. Making predictions
2. Making inferences
3. Discussing themes
4. Asking and answering questions to improve understanding



Themes:

Courage
Prejudice
War
Friendship
Forgiveness
Tolerance

IRON

Iron is a metal. It can be mixed with carbon to make an even stronger metal called steel.
Steel is used to make many things including cars, ships, buildings, tools, pots and pans.
Iron is also an important nutrient that humans, plants, and animals need to survive.

FARMING

Farmers use machinery made of steel on their farms.

When the Iron Man was written, farmers would dig over the soil in their fields using a metal plough and horses.

We're also reading (non-fiction):
