

Please don't idle- turn your engine off!

- Idling creates pollution which quickly builds up around and inside your vehicle.
- Exposure to air pollution damages our lungs, hearts and brain- especially for children.
- Putting a stop to idling is a simple way we can all help to clean up the air we breathe and help our planet.
- Not idling could decrease air pollution by up to 30%!

IDLING HARMS
YOUR LUNGS

Thank you for keeping our air clean! From the Freemantle Eco Warriors
